WORK EXPERIENCE

Senior React Native Developer
Xtended Space

01/2025 - Present   *Noida*

Achievements/Tasks

- Led end-to-end development of a scalable **relocation & storage mobile app** for Android and iOS.
- Integrated **AI-based image detection** for automatic item identification and **DigiLocker KYC** for fast, compliant onboarding.
- Built a **complete payment ecosystem** (token, subscriptions, settlements) with automated booking, dynamic pricing, real-time tracking, and invoices.
- **Collaborated closely with backend, design, and product teams** to translate business requirements into high-quality mobile solutions.
- Took ownership of **critical modules** like booking systems, payments, KYC, and notifications.
- Managed **Android & iOS production releases**, ensuring stability and smooth deployments.

Software Developer
Extrovert Information Technology

01/2024 - 12/2024   *Delhi*

Achievements/Tasks

- Contributed to **Zocial**, a community-driven social media platform, developing event hosting, participation, and friend management features with real-time updates.
- Integrated **real-time chat and messaging** to enhance user engagement, interaction, and coordination.
- **Used Firebase as the backend**, managing authentication, database operations, and real-time data handling.
- **Integrated deep linking and universal links** to route users directly to specific screens, improving engagement and conversion.
- Collaborated with **UI/UX designers and backend teams** to deliver smooth, user-friendly features.

Software Engineer
Akshamala Solutions Pvt. Ltd. (Unnati)

12/2021 - 01/2024   *Noida*

Achievements/Tasks

- Developed a **feature-rich agri e-commerce mobile app** for retailers with real-time inventory, smart search, optimized checkout, weather insights, and Firebase notifications.
- Integrated **third-party SDKs** including payment gateways, analytics, and **Digio (e-NACH, mandate, e-Sign)** along with secure backend API handling.
- Built an **end-to-end fintech loan application system** with automated eligibility checks, document verification, instant approvals, and disbursement workflows.
- Integrated backend APIs and third-party services to enable features such as data fetching, data storing, and pushnotifications.
- **Implemented Razorpay SDK–based payment solutions**, supporting secure and reliable payment flows within the mobile application.
- Utilized Git for version control, ensuring efficient code management and collaboration among team members.
- **Integrated document scanner and camera libraries** to scan and process **coupon QR codes** within the app.

SKILLS

React Native   React   Javascript (ES6+)   Typescript
Redux   Zustand   TanStack Query   GraphQL
System Design   GitHub Actions   Firebase
App store   Playstore   Git   Expo   Analytics
X-Code   Android-Studio   CDN   REST APIs
CI/CD   Postmen   MVC/MVVM
UI/UX Implementation

PROJECTS

Xtended Space

- Developed a **full-scale relocation and storage platform** enabling users to discover services, manage bookings, and track orders through a seamless mobile experience.
- Implemented **smart automation workflows** for item management, scheduling, and service coordination to reduce manual effort and improve operational efficiency.
- Delivered a **scalable, production-ready solution** with secure integrations, real-time updates, and push notifications to enhance transparency and user engagement.

XS Sales App

- Built an **in-house sales enablement app** that records customer calls on the device and **automatically syncs recordings to the CRM**, clearing local storage after successful upload.
- Integrated **AI-based call analysis** to rate recordings on multiple quality and performance factors, helping improve sales effectiveness and compliance.

Unnati Farmer App

- Developed a **smart agri-tech mobile solution** to help farmers manage crop health and daily farm activities using technology-driven insights.
- Implemented an **image-based crop analysis feature** where farmers upload plant photos to detect diseases and receive actionable treatment recommendations.
- Integrated a **digital agri-commerce flow** enabling farmers to directly purchase suggested fertilizers, pesticides, and medicines within the app.

Ora Finance App

- Developed supply chain, over draft and emi based finance solution module.
- Integrated disbursement, digital agreement, document verification features.
- Implemented Role wise authorization, dynamic menu bar, reports and more features.

uStore

- **uStore** is a **digital agri e-commerce platform** that allows farmers and retailers to discover, order, and purchase agricultural products with seamless billing and payment flows.
- The app supports smarter farming through **real-time weather updates**, local-language accessibility, and an intuitive, rural-friendly user experience.

EDUCATION

B.Tech (CSE)
Galgotias University

08/2016 - 08/2020   *Greater Noida*

Intermediate (Math)
B.B. Y. Intermediate college

08/2014 - 08/2016   *Deoria, U.p.*
